TRAINING

Your Training

NZRDA has an active voice where your training is concerned, and if you have any comments or feedback regarding current reviews, papers, or reports, please contact us as we welcome your feedback.

Training Costs

The costs of training lists were formulated and agreed to by NREG (National Engagement Group) as a standardised list of what should be reimbursed by the DHB in your pathway to obtain vocational training. Please note these lists are NOT exhaustive and you are entitled to reimbursement for training undertaken in the pathway to obtain a New Zealand or Australasian vocational scope of practice.

TRAINING

Your Training

NZRDA has an active voice where your training is concerned, and if you have any comments or feedback regarding current reviews, papers, or reports, please contact us as we welcome your feedback.

Training Costs

The costs of training lists were formulated and agreed to by NREG (National Engagement Group) as a standardised list of what should be reimbursed by the DHB in your pathway to obtain vocational training. Please note these lists are NOT exhaustive and you are entitled to reimbursement for training undertaken in the pathway to obtain a New Zealand or Australasian vocational scope of practice.

View the cost of training lists below:

Ward Calls Podcast

The Ward Calls podcast dissects common ward calls you will need to confidently manage as a PGY1 doctor and beyond. We discuss practical, safe and comprehensive approaches that are achievable in the limited time available when working on the ward.

Career Planning

NZRDA and the DHBs have developed a nationally consistent vocational career design framework for resident doctors and DHBs in NZ. Please find below the agreed guidelines and career planning form for completion by Resident Doctors as and when required and / or when updating their career design.

TRAINING

Your Training

NZRDA has an active voice where your training is concerned, and if you have any comments or feedback regarding current reviews, papers, or reports, please contact us as we welcome your feedback.

Training Costs

The costs of training lists were formulated and agreed to by NREG (National Engagement Group) as a standardised list of what should be reimbursed by the DHB in your pathway to obtain vocational training. Please note these lists are NOT exhaustive and you are entitled to reimbursement for training undertaken in the pathway to obtain a New Zealand or Australasian vocational scope of practice.

View the cost of training lists below:

Ward Calls Podcast

The Ward Calls podcast dissects common ward calls you will need to confidently manage as a PGY1 doctor and beyond. We discuss practical, safe and comprehensive approaches that are achievable in the limited time available when working on the ward.

Career Planning

NZRDA and the DHBs have developed a nationally consistent vocational career design framework for resident doctors and DHBs in NZ. Please find below the agreed guidelines and career planning form for completion by Resident Doctors as and when required and / or when updating their career design.

TRAINING

Your Training

NZRDA has an active voice where your training is concerned, and if you have any comments or feedback regarding current reviews, papers, or reports, please contact us as we welcome your feedback.

Training Costs

The costs of training lists were formulated and agreed to by NREG (National Engagement Group) as a standardised list of what should be reimbursed by the DHB in your pathway to obtain vocational training. Please note these lists are NOT exhaustive and you are entitled to reimbursement for training undertaken in the pathway to obtain a New Zealand or Australasian vocational scope of practice.

View the cost of training lists below:
